

DEUTSCHER HEALTHCARE

350kg BIG TED BED

WMR1090BT DEUTSCHER BARIATRIC FLOORLINE BED

A FOLDABLE 350KG BARIATRIC BED

The WMR1090BT bed is for those clients who require a higher weight capacity bed than is normally available. This bed is not too large and cumbersome for facilities.

It is an electrically operated 3 function bed (high low, backrest & knee break).

As a floorline bed, it can be lowered to 135mm there by increasing safety for clients who are a falls risk, and then raised to 735mm to give a comfortable height for carers assisting the client.

A generous mattress size of 107 x 203cm is standard (king single sized).

The BT bed is user friendly to operate, store and transport. Its unique design allows it to be easily folded for transport or storage.

The bed can be operated with either a bed hand set control or the key pad built into the foot tower.

Both back rest and knee bend sections have twin actuators, with the raise and lower actuators designed to handle heavier loads.

The bed is controlled through a heavy duty control box, with a battery back up offered as an optional extra.

Large 125mm (5") dual castor, hospital grade wheels are fitted. They are easily locked and unlocked by control bars at each end of the bed. Full width head & foot boards are easily removed without the use of tools.
(Standard colour Red Cherry)

An air mattress pump bracket is fitted to the foot end of the beds as standard.

All Deutscher beds are tested to meet the requirements of ISO 60601-2-52:2010.

ABOUT DEUTSCHER HEALTHCARE

Deutscher Healthcare is a manufacturing company based in Ballarat, Victoria and has been in continuous operation for over 110 years. In earlier years, the parent company, HF. Deutscher Pty. Ltd., specialised in farm equipment and later moved into producing a range of mowers and outdoor power equipment, some of which is still manufactured today. The company is still owned and operated by the original family.

All products are designed and manufactured to a high quality, using first grade materials to ensure the product you buy meets Australian standard requirements; is safe, reliable and built to give trouble free service for many years to come.
